TRANSFER AND TRAVEL AUTHORITY
ENLISTED PERSONNEL ACTION DOCUMENT

22.0 GENERAL INFORMATION.

Once a decision has been made to reassign an individual, information such as ultimate duty station, authorized delay to count as leave, transfer month and new tour date must be conveyed to the member's current duty station in order to facilitate the actual transfer.

The COMNAVPERSCOM and EPMAC document for the transmission of authority for the transfer of enlisted personnel is either the Enlisted Personnel Action Document (EPAD) (NAVPERS 1306/55) or Standard Transfer Directive (STD) or in urgent situations such information may be conveyed by message. EPMAC orders are normally issued by message, STD or NAVGRAM vice EPAD.

22.01 EPAD UTILIZATION.

In addition to the transfer or modification authority contained in an EPAD, this "Action Document" may be utilized by COMNAVPERSCOM to indicate approval of a PRD extension, adjustment of Sea Duty Commencement Date, and acknowledgment of receipt of an individual's application for transfer to the Fleet Reserve.

A complete description of the Enlisted Personnel Action Document is contained in Figure 22A and samples are shown in Figures 22B through 22G.

22.02 AUTHORITY FOR TRANSFER.

Within the EPAD is the Transmission Code (TC) which includes a letter identification for the originator of the directive, the consecutive day of the year (Julian Date, the calendar year in which the TC was originated) and a two digit Desk Code that identifies the COMNAVPERSCOM Code/Rate-Rating-NEC office of the originator, e. g. TC - B0036/A2. The appropriate TC including Desk Code shall be used when referring to the authority for a transfer. EPMAC orders utilize a "P" source, e.g. TC - P2806.

22.03 TRANSFER DATE.

The transfer directive/EPAD contains the month and may include the actual day the transfer is to be executed. If a specific transfer day is not directed, the transfer date within the month is at the discretion of the transferring command for personnel in a "FOR DUTY" status (ACC 1XX). Personnel transferring from the Transient, Patient, Prisoner and Holdee (TPP&H) and Student Pipelines or as the result of an immediate graduation, or brig availability report shall be transferred on the date of graduation from training, or date of release from confinement. It is recognized that delays may occur in transferring personnel due to the requirement for screenings or portcalls. These tasks should be carried out expeditiously and personnel transferred as soon as possible but no more than two working days after completion of these screenings or receipt of portcalls.

22.031 CHANGE IN TRANSFER DATE. Commands may change month of transfer specified by the assignment directive, to a subsequent month, for only those personnel assigned in a "FOR DUTY" status (ACC 1XX), provided that the individuals meets the "Report not later than" dates specified in the transfer directive. If a modification would result in a change to a "Report not later than" date or a change in the fiscal year, a modification may only be authorized by the originator of the EPAD/transfer directive in the form of order modification.

22.0311 A school assignment directs an individual to report for TEMDU, TEMDUINS, or DUINS and specifies a reporting date at the school. In this situation, the transfer date may be at the discretion of the transferring command, providing the reporting date to the school is met. The transfer date shall be computed from the date specified in the assignment document considering travel time, proceed time, and authorized delay in reporting to count as leave which the individual intends to take. Personnel shall not be ordered to report earlier than the date specified in the assignment document except in the case of personnel graduating early from a course of instruction under the "Self-Pace" program and ordered to an additional TEMDU/TEMDUINS assignment at another activity. In this case, the transferring activity will request permission from COMNAVPERSCOM to modify the specified report "Not Later Than" date. The report "Not Earlier Than" date specified in the original assignment document will then be changed to read one day prior to the newly established report NLT date.

22.0312 In no case shall orders be modified for transfer in a different Fiscal Year or earlier than the month of transfer specified by assignment directive without the approval of COMNAVPERSCOM or EPMAC.

22.0313 When orders are modified, the transferring command shall insure that the appropriate revised accounting data is reflected in all documents pertaining to the move. Of particular note is the requirement to provide the appropriate HHG shipping office with the revised accounting data so that costs associated with shipment of HHG may be accounted for in the proper Fiscal Year.

22.04 DELAY IN REPORTING.

The transfer directive/EPAD contains the number of days the individual is authorized to delay in reporting, such delay to count as leave, provided no excess leave is involved. This is the maximum number of days which may be authorized by the commanding officer of the transferring command, such amount to be authorized when preparing the Standard Transfer Order and entered thereon. The member should be made aware of the provisions of MILPERSMAN 1050-150. Requests for modification of transfer directive/EPAD for additional leave shall be sent to the prospective ultimate command. CO, EPMAC may modify DELREP of personnel made available to them who are ultimately assigned to overseas duty to allow up to 30 days delay in reporting which provides a reasonable visitation period prior to departure for an extended overseas tour.

22.05 ACTION REQUIRED UPON RECEIPT OF ENLISTED PERSONNEL ACTION DOCUMENT, OTHER ASSIGNMENT DIRECTIVE OR MODIFICATION.

22.051 COMMAND ACTION. Upon receipt of an EPAD, other assignment directive or modification, the commanding officer shall ensure that the following minimum guidance is followed:

- Personal information concerning the individual shall be reviewed to ensure accuracy and, if errors appear, notify originator.
- Notify the member concerned, explaining the directive completely.
- Ensure individual and/or command compliance with appropriate instructions/requirements as listed in the directive which may include narrative instructions and/or numbered "comply with" instructions. It is mandatory to present member with a transcription of numbered items for his/her information. A specific comment relative to necessity of acquiring additional obligated service must be stated to the individual, if applicable.
- When non-compliance with a transfer directive is expected, notify

originator and those concerned within 72 hours, stating reason for non-compliance.

- If a transfer directive is received from another assignment control authority after receipt of a transfer directive and member has not departed, notify both ACAs indicating both TCs and ultimate activities, requesting disposition.
- Transfer directive modification received after transfer (departure) of member. Explain modification by telegram and notify member at leave address. Advise all commands concerned that member has been transferred and that modification has been forwarded to member at leave address.
- If member's ASSIGN RATE indicates a possible misassignment, notify originator requesting disposition.
- If the present NEC, rating/rate indicate the possibility of a misassignment, notify originator indicating suspected reason for misassignment, requesting disposition.
- If member has disciplinary action pending and final disposition cannot be completed prior to required date of transfer comply with Article 3.024.

22.06 ACCOUNTABILITY OF TRANSIENT PERSONNEL.

Procedures set forth herein and the associated accounting procedures employed within MAPTIS provide for the accountability of transient enlisted personnel.

When an assignment directive is issued, the original (action addressee, if a message) is sent to the transferring command with copies sent to ultimate destination and any intermediate activities named in the directive. Action is taken to indicate a prospective gain on the receiving command's EDVR and as a prospective loss to the transferring command's EDVR.

22.061 MINIMUM COMMAND ACTION TO ASSIST IN THE ACCOUNTABILITY OF TRANSIENT PERSONNEL. In an effort to increase the effectiveness of the accounting for transient personnel, all commands will adopt the following minimum procedures:

- The command issuing the Standard Transfer Order (prepared IAW Chapter 21) furnishes the ultimate duty station and intermediate reporting activities with copies of the STO immediately after preparation of STO.

NOTE: RTC PERSUPPDETs transferring recruits to follow-on "A" school training are not required to forward copies of the STO to the gaining PERSUPPDET/school.

- The command to which the member is to report shall review the EDVR to ensure an assignment directive has been received for every prospective gain. If an assignment directive has not been received, request cognizant detailing authority to forward a copy of the assignment directive. The command shall then review the assignment directive to ensure that an advance copy of the STO is received prior to the first of the month following the indicated transfer month. If a copy of the STO is not received on time, request a copy of the STO from the transferring command.
- Comply with MILPERSMAN 1600-040 in all cases when member fails to report as ordered.

22.07 DISTRIBUTION CONTROL AUTHORITY PROCEDURES.

EPMAC Transfer Directive - COMNAVPERSCOM distributes non-designated SN/FN/AN

personnel to EPMAC for reassignment within a specified MCA. An Information EPAD will be sent to the transferring command simultaneous to the transmission of the distribution information to EPMAC. However, EPMAC will issue the assignment directive in these cases and notify all concerned.

22.071 Non-Receipt of an Assignment Directive. If an activity, having made a member available for assignment, has not received an assignment directive within the time frame specified in Chapter 18, that activity should:

- Notify COMNAVPERSCOM for those personnel who are rated or designated strikers.
- Notify COMNAVPERSCOM, with info copy to EPMAC, for those non-designated SN/FN/AN that have not been identified by an Information EPAD as being distributed to EPMAC.
- Notify EPMAC, with info copy to COMNAVPERSCOM, for those non-designated SN/FN/AN that have been identified by an Information EPAD as being distributed for assignment. In these cases, be sure to reference the COMNAVPERSCOM TC authority cited on the EPAD.

22.072 TRANSMISSION OF RECRUIT ASSIGNMENT DATA. The transmission of general detail recruit assignment data is currently accomplished by AUTODIN/MITRON between EPMAC and the RTCs. The format of information contained in the advance transmission has been developed by mutual agreement between EPMAC and the RTCs. This advance information is followed up by NAVGRAM orders from EPMAC.

22.08 ORDER TEXT.

The NMPDS Order Text File supports the requirements of the enlisted PCS transfer orders written by COMNAVPERSCOM, EPMAC, and NRPC. The text file is managed by the Distribution Support Division (PERS-47), COMNAVPERSCOM.

All requests for additions or changes to the NMPDS Text File must be in writing and forwarded to COMNAVPERSCOM (PERS-47) via the requestor's division director. All requests for text file additions or changes must include the following information:

- Copies of references specifically requesting or requiring the text file action (e.g., specific request from the fleet, new instruction or policy) if appropriate and available, or a statement justifying the requested text action.
- Suggested wording of the new or changed text including guidance on use of fill-ins, if appropriate.
- Guidance on the suggested or required use of the text (i.e., transfer situations, UICs or geographic areas, categories of servicemembers or types of orders for which the text applies and is to be used).

P-CODES

Comply-with instructions for commands serviced by the Pay/Personnel Administrative Support System (PASS) will be contained on transfer directives and will be identified as P-Codes. The P-Codes give the location of the Personnel Support Detachment (PSD) to which a member must report for personnel purposes.

Orders for personnel in which the transfer directive contains a P-Code shall contain the following statement and shall be explained to the member prior to transfer:

- "REPORT FOR PERSONNEL ACCOUNTING TO (the address of the PSD which corresponds to the P-Code found below) and REPORT FOR DUTY TO (for administrative purposes to command to which assigned for duty)."

The PSD shall be included as an INFO ADDRESSEE on all message traffic concerning the transfer directive and shall be sent copies of all correspondence sent by mail including an advanced copy of the STO.

PASS offices which support commands that are geographically separated from the PASS office, non-Naval training facilities or commands with unusual reporting requirements may have agreements with these commands which permit a member to report directly to the ultimate command without reporting first to the PASS office. In these cases, it is the responsibility of the PASS office, upon receipt of the transfer directive, to notify the transferring command of the correct reporting procedures.

Information concerning PASS can be found in OPNAVINST 1000.23 (PASS Consolidation Manual).
